Second: subtitle will change the letter-spacing and opacity

Third: menu will change its the width and opacity

*use the image files included for background and logo

2. When you hover a photo, description of each photo shows using overflow and transition.

Cream Puff

I have always wanted to make

Cream Puff

I have always wanted to make cream puffs, but was afraid to. Why? I'm not sure. They are surprisingly so easy! And I know this seems kind of weird to say, but they are actually cream puffs. Like the ones you buy in stores. A real cream puff.
